ASTRAL MINING CORPORATION
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED JUNE 30, 2010
(Unaudited - Prepared by Management)

1. NATURE OF OPERATIONS AND ABILITY TO CONTINUE AS A GOING CONCERN

The Company is a junior resource company engaged in the acquisition and exploration of unproven mineral interests in Canada. As at June 30, 2010 the Company has not earned any production revenue, nor found proved reserves on any of its mineral interests. Consequently the Company considers itself to be an exploration stage company. The amounts shown as mineral properties and deferred costs represent expenditures incurred to date, less amounts recovered, amortized and/or written off, and do not necessarily represent present or future values. The underlying value of the mineral properties and deferred costs are entirely dependent on the existence of economically recoverable reserves, securing and maintaining title and beneficial interest in the properties, the ability of the Company to obtain the necessary financing to complete development, and future profitable production.

During the three months ended June 30, 2010 the Company completed equity financings totalling \$1,250,000. At June 30, 2010 the Company had not yet achieved profitable operations, had working capital of \$637,826, has accumulated losses of \$4,713,889 and expects to incur further losses in the development of its business, all of which casts substantial doubt about the Company's ability to continue as a going concern. The Company will continue to require additional funding to maintain its ongoing exploration programs, option payment commitments, property maintenance payments and operations and administration for the next fiscal year. However, there can be no assurances that the Company will be successful in its efforts, in which case the Company may be unable to meet its obligations. See also Note 11.

These interim consolidated financial statements have been prepared on a going concern basis in accordance with Canadian generally accepted accounting principles ("Canadian GAAP"). The going concern basis of presentation assumes the Company will continue to operate for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. These interim consolidated financial statements do not reflect adjustments to the carrying value of assets and liabilities, the reported income and expenses and balance sheet classifications used that would be necessary if the going concern assumption were not appropriate. Such adjustments could be material.

2. SIGNIFICANT ACCOUNTING POLICIES

These interim consolidated financial statements of the Company have been prepared by management in accordance with Canadian GAAP. The preparation of financial statements in conformity with Canadian GAAP requires management to make estimates and assumptions that affect the amounts reported in the interim consolidated financial statements and accompanying notes. Actual results could differ from those estimates. The interim consolidated financial statements have, in management's opinion, been properly prepared using careful judgement with reasonable limits of materiality. These interim consolidated financial statements should be read in conjunction with the most recent annual consolidated financial statements. The significant accounting policies follow that of the most recently reported annual consolidated financial statements.

Future Accounting Policies

Business Combinations, Consolidated Financial Statements and Non-Controlling Interests

The CICA issued three new accounting standards in January 2009: Section 1582, *Business Combinations*, Section 1601, *Consolidated Financial Statements*, and Section 1602, *Non-Controlling Interests*. These new standards will be effective for fiscal years beginning on or after January 1, 2011. The Company is in the process of evaluating the requirements of the new standards.

ASTRAL MINING CORPORATION
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED JUNE 30, 2010
(Unaudited - Prepared by Management)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Section 1582 replaces Section 1581, *Business Combinations*, and establishes standards for the accounting for a business combination. It provides the Canadian equivalent to International Financial Reporting Standards (“IFRS”) 3, *Business Combinations*. The section applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2011. Sections 1601 and 1602 together replace Section 1600, *Consolidated Financial Statements*. Section 1601, establishes standards for the preparation of consolidated financial statements. Section 1601 applies to interim and annual consolidated financial statements relating to fiscal years beginning on or after January 1, 2011. Section 1602 establishes standards for accounting for a non-controlling interest in a subsidiary in consolidated financial statements subsequent to a business combination. It is equivalent to the corresponding provisions of IFRS IAS 27, *Consolidated and Separate Financial Statements*, and applies to interim and annual consolidated financial statements relating to fiscal years beginning on or after January 1, 2011.

The Company does not anticipate the above new standards to have an impact on the Company’s financial position and results of operations.

International Financial Reporting Standards

The AcSB has announced that Canadian publicly accountable enterprises will be required to adopt IFRS effective January 1, 2011. Although IFRS employs a conceptual framework that is similar to Canadian GAAP, there are significant differences in recognition, measurement and disclosure. The Company has undertaken a project to assess the potential impacts of the transition to IFRS and has developed a detailed project plan to ensure compliance with the new standards. The Company has completed the initial phase of the implementation project including the detailed diagnostic analysis which included a high-level impact assessment to identify key areas that may be impacted by the adoption of IFRS. This analysis resulted in the prioritization of areas to be evaluated in the next phase of the project plan, component evaluation. This phase, which is currently in progress, includes the analysis of accounting policy alternatives available under IFRS as well as the determination of changes required to existing information systems and business processes. The Company is currently assessing the impact of the adoption of IFRS on our results of operations, financial position and financial statement disclosures.

3. MINERAL PROPERTIES AND DEFERRED COSTS

ASTRAL MINING CORPORATION
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED JUNE 30, 2010
(Unaudited - Prepared by Management)

3. MINERAL PROPERTIES AND DEFERRED COSTS (continued)

The Jumping Josephine Project is comprised of the following four claim groups:

(a) Jumping Josephine Claims

The Jumping Josephine Claims are comprised of a 60% undivided interest in 24 unpatented mining claims covering approximately 11,667 hectares located in the West Kootenay Mining District, British Columbia.

On December 14, 2009 the Company entered into an option agreement with Kootenay Gold whereby the Company can acquire the remaining 40% interest in the Jumping Josephine Claims. To fully earn this additional interest the Company will issue a total of 4,000,000 common shares as follows:

Date	Share Issuances
On TSXV approval	750,000 (issued)
On June 14, 2010	750,000 (issued)
On December 14, 2010	1,000,000
On June 14, 2011	<u>1,500,000</u>
	<u><u>4,000,000</u></u>

The Company is also required to fund work programs of \$2 million over two years with \$750,000 to be spent in the first year and \$1,250,000 to be spent in the second year. The Company will also pay a 1% NSR and issue an additional 400,000 common shares if the Jumping Josephine Claims achieve commercial production.

(b) Blueberry Claims

On July 4, 2007, as amended June 8, 2009, the Company entered into an option agreement with Mineworks Ventures Inc. (“Mineworks”), a private Canadian company, to acquire a 100% undivided interest in 19 unpatented mining claims (the “Blueberry Claims”) covering approximately 7,147 hectares located in the Rossland Mining District, British Columbia, immediately east of the Company’s Jumping Josephine Claims. To earn the interest in the Blueberry Claims the Company has now issued a total of 40,000 common shares and made cash payments totaling \$45,000 and is required to make a further \$15,000 cash payment and issue 4,000 common shares by June 1, 2011.

During the term of the option the Company must keep the Blueberry Claims in good standing. Upon exercise of the option the vendor will retain a 2.5% NSR. The Company has the right to purchase 2.0% of the NSR for a total of \$2 million.

(c) Columbia - Rossland Claims

On June 20, 2008 the Company entered into an option agreement with Mineworks to acquire a 100% undivided interest in 33 unpatented mining claims (the “Columbia-Rossland Claims”) covering approximately 15,452 hectares located in the Rossland Mining District, British Columbia. The Company has earned its interest in the Columbia-Rossland Claims through the issuance of 45,000 common shares at an assigned value of \$32,200. Mineworks retains a 2.5% NSR. The Company has the right to purchase a 2.0% NSR for \$2 million.

ASTRAL MINING CORPORATION
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED JUNE 30, 2010
(Unaudited - Prepared by Management)

3. MINERAL PROPERTIES AND DEFERRED COSTS (continued)

(d) Ridge Claims

On March 11, 2010 the Company entered into a transfer agreement with Mineworks whereby the Company purchased a 100% undivided interest in six claims (the "Ridge Claims"), covering 2,739 hectares located in the West Kootenay Mining District, British Columbia, through the issuance of 50,000 common shares at an assigned value of \$15,500. Mineworks retains a 2.5% NSR. The Company has the right to purchase 1.5% NSR for \$2 million.

(a) During the three months ended June 30, 2010 the Company completed:

- i) a short form prospectus offering (the "Offering") of 3,000,000 units (the "Units") at a price of \$0.20 per Unit, and 2,000,000 flow-through units (the "FT Units") at a price of \$0.20 per FT Unit, for total gross proceeds of \$1,000,000. Each Unit comprised of one common share and one non-transferable common share purchase warrant (a "Warrant"). Each FT Unit comprised of one flow-through common share and one Warrant. Each Warrant entitles the holder to acquire one additional common share exercisable at a price of \$0.25 before May 31, 2011 and thereafter at a price of \$0.35 until May 31, 2012.

The Company paid the agent a cash fee of \$100,000 and a corporate finance fee of \$25,000. The agent also received 500,000 warrants (the "Agent's Warrants"). The terms of the Agent's Warrants are the same as the Warrants. The fair value of the Agent's Warrants has been estimated using the Black-Scholes option pricing model. The assumptions used were: dividend yield - 0%; expected volatility - 147.11%; a risk-free interest rate of 1.78%; and an expected life of two years. The value assigned to the underlying Agent's Warrants was \$84,120. As at June 30, 2010, the Agent's Warrants remained outstanding.

ASTRAL MINING CORPORATION
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED JUNE 30, 2010
(Unaudited - Prepared by Management)

4. SHARE CAPITAL (continued)

The Company also incurred a total of \$97,446 for legal costs (including \$43,709 paid to a law firm of which the spouse of the President of the Company is a partner) and filing fees, of which \$64,305 had been incurred as at March 31, 2010.

Directors of the Company and the spouse of the President of the Company purchased 875,000 FT Units for \$175,000; and

- (ii) a non-brokered private placement of 1,075,000 units, at a price of \$0.20 per unit, and 175,000 flow-through units, at a price of \$0.20 per flow-through unit, for aggregate gross proceeds of \$250,000. Each unit comprised of one common share and one non-transferable common share purchase warrant. Each flow-through unit comprised of one flow-through common share and one non-transferable common share purchase warrant. Each warrant entitles the holder to acquire an additional common share exercisable for two years at a price of \$0.25 in year one and \$0.35 in year two.

The Company incurred a total of \$1,250 for filing fees.

The President of the Company purchased 105,000 flow-through units for \$21,000.

- (b) A summary of the number of common shares reserved pursuant to the Company's outstanding warrants at June 30, 2010 and 2009 and the changes for the three months ending on those dates is as follows:

	<u>2010</u>		<u>2009</u>	
	Number	Weighted Average Exercise Price \$	Number	Weighted Average Exercise Price \$
Balance, beginning of period	2,926,744	0.94	553,395	6.40
Issued	6,750,000	0.25	-	-
Expired	<u>(149,795)</u>	4.50	<u>(403,600)</u>	7.10
Balance, end of period	<u><u>9,526,949</u></u>	0.40	<u><u>149,795</u></u>	4.50

The following table summarizes information about the number of common shares reserved pursuant to the Company's warrants outstanding at June 30, 2010:

Number	Exercise Price \$	Expiry Date
2,576,949	0.75	October 7, 2014

FOR THE THREE MONTHS ENDED JUNE 30, 2010
(Unaudited - Prepared by Management)

5. STOCK OPTIONS AND STOCK-BASED COMPENSATION

The Company has established a rolling stock option plan (the "Plan"), in which the maximum number of common shares which can be reserved for issuance under the Plan is 10% of the issued and outstanding shares of the Company. The minimum exercise price of the options is set at the Company's closing share price on the day before the grant date, less allowable discounts in accordance with the policies of the TSXV. Options granted may be subject to vesting provisions as determined by the Board of Directors and have a maximum term of five years.

During the three months ended June 30 2010 the Company granted 252,000 stock options to a director and a consultant and recorded compensation expense of \$10,230. The Company did not grant any stock options during the three months ended June 30, 2009.

The fair value of stock options granted and vested during the three months ended June 30, 2010 is estimated using the Black-Scholes option pricing model using the following assumptions:

Risk-free interest rate	2.31%
Estimated volatility	128.27%
Expected life	3 years
Expected dividend yield	0%
Estimated forfeiture rate	0%

The weighted average fair value of all stock options granted during the three months ended June 30, 2010 to the Company's consultant was \$0.20 per option.

A summary of the Company's outstanding stock options at June 30, 2010 and 2009 and the changes for the three months ending on those dates is as follows:

	<u>2010</u>		<u>2009</u>	
	Options Outstanding	Weighted Average Exercise Price \$	Options Outstanding	Weighted Average Exercise Price \$
Balance, beginning of period	535,195	0.34	73,500	4.84

6. CONTRIBUTED SURPLUS

Contributed surplus for the three months ended June 30, 2010 and 2009 is comprised of the following:

	2010	2009
	\$	\$
Balance, beginning of period	635,844	483,507
Stock-based compensation on stock options	10,230	-
Stock-based compensation on agents' warrants	<u>84,120</u>	<u>-</u>
Balance, end of period	<u>730,194</u>	<u>483,507</u>

7. RELATED PARTY TRANSACTIONS

- (a) The President of the Company provides his services on a full-time basis under a contract with a private company controlled by the President of the Company for a current annual fee of \$110,000. During the three months ended June 30, 2010 the Company was billed a total of \$27,500 (2009 - \$27,500) by the President. The contract also provides that, in the event the services are terminated without cause or upon a change in control of the Company, a termination payment would include three months or eighteen months, respectively, of compensation plus a bonus amount agreed to by the parties. As at June 30, 2010, \$nil (2009 - \$14,265) remained outstanding and is included in accounts payable and accrued liabilities.
- (b) Effective June 1, 2008 the Company entered into an agreement with Chase Management Ltd. ("Chase"), a private company owned by a director of the Company, to provide accounting, administrative and management services for a minimum term of one year, at a rate of \$3,000 per month, plus disbursements. Chase may also provide additional services as required. During the three months ended June 30, 2010 the Company was billed a total of \$25,000 (2009 - \$26,125) by Chase. As at June 30, 2010, \$5,000 (2009 - \$8,572) remained outstanding and is included in accounts payable and accrued liabilities.
- (c) During the three months ended June 30, 2010 the Company was billed \$4,500 (2009 - \$4,500) for geological services provided by a director of the Company. As at June 30, 2010, \$1,500 (2009 - \$54,750) remained outstanding and is included in accounts payable and accrued liabilities.
- (d) See also Note 4(a).

Unless otherwise stated, related party transactions are measured at the exchange amount, being the amount of consideration established and agreed to by the related parties.

Contributed surplus	<u>84,120</u>	<u>-</u>
	<u>451,800</u>	<u>-</u>

9. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Fair value estimates of financial instruments are made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

The carrying value of cash, amounts receivable, reclamation bonds, accounts payable and accrued liabilities approximate their fair value.

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit Risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to amounts receivable. Management believes that the credit risk concentration with respect to financial instruments included in amounts receivable is remote.

Liquidity Risk

Liquidity risk is the risk that the Company will not have the resources to meet its obligations as they fall due. The Company manages this risk by closely monitoring cash forecasts and managing resources to ensure that it will have sufficient liquidity to meet its obligations. All of the Company's liabilities are classified as current and are anticipated to mature within the next fiscal period. The Company intends to settle these with funds from its existing working capital and future equity financings.

9. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

Market Risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices. These fluctuations may be significant.

Interest Rate Risk

The Company is exposed to interest rate risk to the extent that the cash bears floating rates of interest. The interest rate risk on cash and on the Company's obligations are not considered significant.

10. CAPITAL MANAGEMENT

The Company's objective when managing capital is to safeguard its ability to continue as a going concern. The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition and exploration of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company defines capital that it manages as share capital, cash equivalents and short-term investments. The properties in which the Company currently has an interest are in the exploration stage; as such the Company has historically relied on the equity markets to fund its activities. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

The Company does not expect its current capital resources will be sufficient to meet all of its future exploration plans, option payments and operating requirements and is dependant upon future equity or debt transactions to meet these obligations.

11. SUBSEQUENT EVENTS

- (a) Subsequent to June 30, 2010, the Company granted stock options to its officers, directors, employees and consultants to purchase 486,500 common shares at a price of \$0.25 per share for a period of three years.
- (b) During August 2010, the Company agreed to conduct a non-brokered private placement of up to 3,750,000 flow-through units at a price of \$0.20 per unit for gross proceeds of up to \$750,000. Each unit will comprise one-flow-through common share and one non-transferable common share purchase warrant. Each warrant will entitle the holder to acquire an additional common share exercisable for two years at a price of \$0.25 per share in year one and \$0.35 per share in year two. The Company has completed a first tranche closing of 2,500,000 units for \$500,000 and paid a cash commission of \$25,000, due diligence fees of \$25,000 and issued a finder's option to purchase 250,000 units exercisable at a price of \$0.20 per unit for a term of two years. Each finder's unit will consist of one non-flow-through common share and one non-transferable shares purchase warrant having the same terms as the private placement warrant.
